

FRANCOIS DASSIGNY

PEDAGOGICAL DIRECTOR - FRENCH-SPEAKING EDUCATOR

After obtaining my diploma as a nursery school teacher (Belgium) in 2003, I quickly initiated alternative pedagogies with the classes I was in charge of.

Year after year, I have gained experience in bilingual and even trilingual schools abroad (Belgium, Spain, Finland), I have developed many skills thanks to my observations and collaboration with various educational teams.

Back in France, I perfected my practices by joining the pedagogical teams of several Calandretas schools in the Gard (bilingual, Freinet and Institutional pedagogy) and then by participating in the opening of a Montessori school.

At the same time, I followed numerous training courses, thrilled to deepen my knowledge and skills: didactic activities with Céline Alvarez, Montessori pedagogy at Alter-Eco30 with Anne Lorthiois, cooperation pedagogy at Les Amanins with Isabelle Peloux, alternative pedagogies at Les Hameau des buis with Sophie Rabhi.

These rich experiences have allowed me to add to my practice new effective pedagogical tools that respect the development of the child.

Today I am proud and happy to welcome your children to *L'école du Chemin* in a warm atmosphere and an environment conducive to learning environment.
